LinkedIn: linkedin.com/in/abhishek-ph-36113526b | GitHub: github.com/ItsAbhishekPH

PROFILE SUMMARY

Full Stack Developer with hands-on experience building and deploying production-ready web applications using Next.js, React.js, Node.js, Express.js, Django, PostgreSQL, Prisma, and Docker. Contributed to AI-powered solutions, including a WhatsApp service management platform and a multi-role Learning Management System, with expertise in REST APIs, authentication, RBAC, and modern web development.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, SQL, HTML5, CSS3
- **Frontend:** Next.js, React.js, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, Django, Django REST Framework, REST APIs
- **Databases:** PostgreSQL, MySQL, Prisma ORM, Redis
- **DevOps & Tools:** Docker, Docker Compose, Git, GitHub, Postman, VS Code, Linux, Nginx
- **Other:** JWT Authentication, RBAC, Meta Cloud API, RAG, LiveKit, Razorpay

PROFESSIONAL EXPERIENCE & PROJECTS

Stibe Labs | Full Stack Developer

February 2026 – Present

Spearheaded the architecture and development of highly scalable platforms, focusing on complex core features and infrastructure:

- **AI-Learnr (Global EdTech Marketplace):** Architected a two-sided marketplace using Fastify microservices, Next.js, and Flutter. Implemented Cloudflare Realtime SFU for live batch video classes and designed a secure pseudonymous student identity system with OTP authentication.
- **Stibe Mail (Self-Hosted Business Email):** Designed production email infrastructure using Go microservices and Stalwart MTA. Engineered async event processing via Redis Streams and developed an automated DNS wizard to ensure SPF, DKIM, and DMARC deliverability.
- **PoornasreeAI (WhatsApp Service Platform):** Built a full-stack automation system integrating the Meta Cloud API with Express and MySQL. Automated service ticket management, engineer dispatch workflows, and OTP-based verification, deploying the admin dashboard via Docker Compose.
- **SmartUp Portal (Live Classroom SaaS):** Developed a K-12 e-learning platform with Next.js, PostgreSQL, and Redis. Integrated LiveKit WebRTC for low-latency virtual classrooms and orchestrated zero-downtime PM2 deployments using custom shell scripts.

Grapesgenix Technical Solutions Pvt. Ltd. | Full Stack Development Intern

Sep 2024 – Mar 2025

- Built full-stack web applications using Django and React.
- Developed REST APIs with Django REST Framework.
- Designed responsive user interfaces and optimized MySQL performance.

Independent Projects

- **Clinic Booking Website:** Built a doctor appointment booking platform with REST APIs and secure payments. (Tech Stack: Django, React, DRF, MySQL, Razorpay)
- **Price Comparison Website:** Developed a product price comparison platform with search, filtering, and optimized database queries. (Tech Stack: Django, MySQL, HTML, CSS, JavaScript)

EDUCATION

Bachelor of Science in Computer Science

2022 – 2025

University of Calicut, KRSN College, Valanchery

CERTIFICATIONS & TRAINING

Python Full Stack Development

May 2025 – Nov 2025

One Team Solutions, Calicut

- Completed a comprehensive full-stack training in Python Django and React.js.
- Built and integrated RESTful APIs with dynamic React frontends.
- Enhanced database performance and deployment workflows.

Internship Certificate

Grapesgenix Technical Solutions Pvt. Ltd.
